Fit is scored out of 20 across cause match, geography, grant size and how open the funder is to a request like yours. **Evidence** links to the funder's own published page, never an aggregator, and the date shown is when a person last read that page. A deadline read more than 30 days ago is treated as unverified and gets re-checked before anything is submitted or quoted against it. **Ask** is the amount requested or planned. Nothing on this page is awarded money, and Nomar Grants does not predict or guarantee funding outcomes.
